

DigiPoS Customer Display

Superior technology for the value-conscious Retailer

The DigiPoS WD-2030 customer display offers a value performance ratio that is unmatched in today's POS peripheral market place.

This 20 column, 2 line display shows data in easy to read characters measuring 9.8mm x 6mm. Standard features include Esc / POS & CD5220 compatibility. With interchangeable poles of varying sizes, the height can easily be adjusted. It has a square base option for stand alone set up, or a round base for counter mounting, as well as an option to be mounted to a DigiPole solution.

Features

- 20 columns x 2 lines
- Adjustable display panel provides customized viewing angle
- 2 pole sizes for optimal positioning
- Green power function, powers down when not in use
- RS232C interface
- USB and serial compatible
- ESC/POS command compatible
- Stand alone, counter mount, and DigiPole mounting options
- Three year warranty
